

LOAD SKATES

ADJUSTABLE LOAD SKATES

Suitable for loads up to 24 tonne and adjustable these skates are fitted with handles for easy positioning once the load is lifted. Fitted with a rubber surfaced non-slip platform that protects and stabilizes the load.

PART NO.	SAFE WORKING LOAD (TONNES)	ROLLER TYPE	NUMBER OF ROLLERS	ROLLER SIZE (MM)	SKATE DIMENSIONS
LSR001	6	Nylon	8	85 x 90	300 x 250 x 115
LSR002	12	Nylon	12	85 x 90	360 x 220 x 115
LSR004	24	Steel	16	85 x 90	360 x 220 x 115

FIXED LOAD SKATES

These load skates support loads up to 2.5 tonne and are perfect for moving heavy objects and equipment over short, variable distances.

PART NO.	SAFE WORKING LOAD (TONNES)	ROLLER TYPE	NUMBER OF ROLLERS	ROLLER DIAMETER (MM)	ROLLER LENGTH (MM)
LSR010	2.5	Nylon	2	85	90

LOAD SKATE KITS

These Load Skate Kits provide uncompromising service when installing, moving or working on heavy loads up to 60 tonne. With precise steering control, manoeuvring large machinery or heavy items has never been safer or easier. Enclosed in their own storage container on wheels Skate Kits are an economical solution for short transport distances.

PART NO.	SAFE WORKING LOAD (TONNES)	SUPPORT LENGTH (MM)	SUPPORT WIDTH (MM)	OVERALL HEIGHT (MM)	ROLLER DIAMETER (MM)	SWIVEL TOP (MM)
LSR003	20	120	120	85 x 90	18	130
LSR005	30	120	120	85 x 90	24	130
LSR006	60	130	130	85 x 90	30	150
