- Lids - Available in blue, red, or white.

ROTATIONALLY MOULDED TUB ADD ONS

STAINLESS STEEL HANDLES

Grade 304 stainless steel handles are available for greater mobility and handling of your trolley. Supplied with fasteners for mounting. All our rotationally moulded tubs come with pre-fitted threaded inserts to easily attach handles.

LIDS

Single colour or mix and match – our range of lids help prevent contamination of materials and allow for the tubs to be stacked on top of each other.

CASTORS

Mild and Stainless Steel castor options available in a range of configurations. Each kit includes 4x castors, a mounting plate, and fasteners for assembly.

KIT A

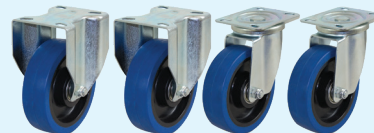

4x S5042 125mm Rebound Rubber Swivel Castors
1x Castor Mounting Plate
1x Set of fasteners for assembly

KIT B

4x S5042B 125mm Rebound Rubber Swivel Castors
1x Castor Mounting Plate
1x Set of fasteners for assembly

KIT C

2x S5042 125mm Rebound Rubber Swivel Castors
2x R5043 125mm Rebound Rubber Rigid Castors
1x Castor Mounting Plate
1x Set of fasteners for assembly

KIT D

2x R5043 125mm Rebound Rubber Rigid Castors
2x S5042B 125mm Rebound Rubber Swivel Brake Castors
1x Castor Mounting Plate
1x Set of fasteners for assembly

KIT E

2x S5042 125mm Rebound Rubber Swivel Castors
2x S5042B 125mm Rebound Rubber Swivel Brake Castors
1x Castor Mounting Plate
1x Set of fasteners for assembly

SPRING LOADED BASES

Supplied with a virgin HDPE top. The spring base improves safety by taking the strain out of loading/unloading goods by lowering the load as weight is added and raising them again as items are removed. Keeping everything at a safe working height and preventing leaning over to reach deep into the tub.
