OPR009 (tub sold separately)

BAKERY RACKS

Featuring a fully welded finish, grade 304 stainless steel, a Z-base nesting frame design and interchangeable castors, this range is a step above the rest.

Supplied assembled: A fully welded finish reduces maintenance costs. Say goodbye to flat-packs and re-tightening of fasteners.

Thicker Grade 304 Stainless Steel Construction: Grade 304 stainless steel provides superior corrosion resistance for increased longevity. The superior steel construction of Richmond's racks prevents shelves and frames snapping or buckling in heavy commercial use environments.

Tray locking bars: Prevent baking trays slipping during transport. Trays can be loaded from the back or front of the rack.

Bolt-on interchangeable stainless steel castors: No more rust, no more grinding off the castors for replacement.

High-Temperature Wheels: Australian manufactured, proven to last the distance under extreme conditions, market leading design.

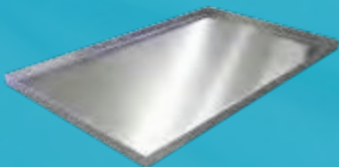

NESTING DESIGN!

All sizes of our bakery racks can nest with each other!

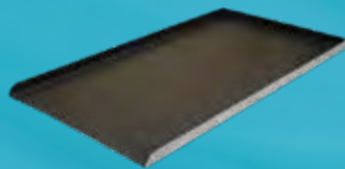

BAKERY TRAYS 16" & 18" WIDE TRAYS AVAILABLE

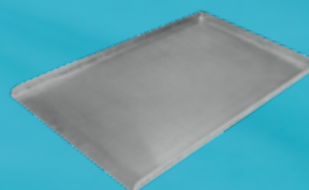

- 3-sided and 4-sided trays available
