

1. Place the bench face down on the floor.
2. Lift and raise the legs with the shorter struts first (on top) so they are pointing up from the base.
3. Lift and raise the legs with the longer struts so they are pointing up from the base.
4. Ensure the support bracket is secured in place and the bracket is straight.
5. Stand the table upright.
6. Remove all protective film, taking care to avoid scratching any surfaces.
7. Adjust the feet if necessary to ensure the table is level.

Note: Place the table top on a clean/flat surface when folding/unfolding to avoid damage to avoid scratches and damage to the table surface.

Cleaning

- Clean the table regularly using a cleaning agent suitable for stainless steel.
- Always remove cleaning agent residue. This can discolour the table surfaces.
- Never leave the table surface damp as this can cause discolouration.
