SIZE GUIDE

Gastronorm sizes were created by the European Standards Committee as a way to standardize the container sizes in the catering industry.

One of the key advantages of Gastronorm pans is their modular design. For instance, a 1/1 GN-sized well can hold a single 1/1 pan, two 1/2 pans, one 1/2 pan alongside two 1/4 pans, or even six 1/6 pans. Because the sizes are based on a consistent fractional system, you can mix and match pans to suit your specific setup and serving needs.

STAINLESS STEEL SERVING TROLLEYS

Designed for cafes, bakeries or back of house operations, Richmonds range of stainless steel serving and cooling trolleys suit GN 1/1 size pans.

Manufactured from commercial grade 304 stainless steel and designed for easy assembly. This range of trolleys also features dual locking bars to stop your trays moving and quiet operation lockable swivel rubber castors.

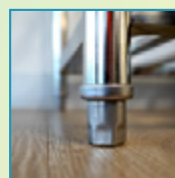

COMMERCIAL SHELVING

Richmond's stainless-steel shelving units are ideal for cool rooms, kitchens, and food prep areas. Built for durability and hygiene, this range offers reliable storage with corrosion resistance for wet and cold environments.

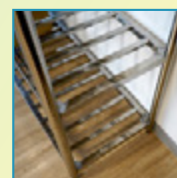

Models with plastic, stainless steel, and ladder shelves are available for hygienic food and appliance storage in different applications.

WHEELS & CASTORS

Castors are what we do best. We have thousands of castor choices in our standard range, and if we don't have what you're looking for, we can design and manufacture it for you.

STAINLESS EXCEL SERIES CASTORS

Ideal for use in wet areas or where frequent wash down is necessary.

Available in 100mm, 125mm, 150mm and 200mm diameters, with load capacities of up to 400kg per castor.

Plate mounted or bolt-hole mounted models.

STAINLESS ELITE SERIES CASTORS

Our Stainless Steel Elite castors are manufactured from grade 304 stainless steel to provide uncompromising durability when hygiene and health are important.

Available in diameters of 50mm, 75mm, 100mm and 125mm with a load capacity of up to 200kg per castor.

UTILITY SERIES CASTORS

These Utility Series castors are ideal for light duty applications such as wire baskets and light duty cabinets.

Available in diameters of 50mm, 75mm and 100mm, with load capacities of up to 70kg per castor.

Plate mounted or bolt-hole mounted models.

ALSO AVAILABLE IN STAINLESS STEEL

LIGHT INDUSTRIAL SERIES CASTORS

These Light Industrial castors are ideal for applications requiring medium-duty mobility.

Available in diameters of 75mm, 100mm and 125mm, with load capacities of up to 100kg per castor.

Brake models available.

CATERING LEGS

Made to suit catering equipment such as display fridges, preparation tables, and bain maries, these stainless steel legs can be used in a wide range of hospitality based applications.

Richmond's stainless steel adjustable catering legs are interchangeable with leading manufacturers.

HIGH / LOW TEMP CASTORS

Richmond's High/Low temperature castors come in a range of sizes and capacities.

Perfect for use in bakery applications, smoke houses, chillers or applications where there is temperature fluctuation and exposure from -30° to +350°C with peaks up to 400°C.

EQUIPMENT SERVICING & MAINTENANCE

EQUIPMENT MAINTENANCE

Operations Equipment:

Regular maintenance of smaller equipment such as mixers, tools, drawers, and more.

Fixtures & Fittings:

Easy replacements of castors, wheels, hinges, handles and mechanical parts.

Welding Services:

Welding repairs for upkeep of commonly used equipment including custom welding for modifying existing equipment.

Stock Handling:

Servicing of equipment used for stocking shelves, such as trolleys, pallet jacks and forklifts.

ASK US! WE CAN FIX ALMOST ANYTHING IN YOUR STORE, ASK US IF WE CAN HELP!

BEFORE:

The old castors on these trolleys were showing clear signs of wear and rust.

AFTER:

We upgraded the trolleys with new corrosion-resistant grade 304 stainless steel castors to keep it running reliably for longer.

COMPLIANCE AND DOCUMENTATION

Regulatory Compliance:

Ensuring all material handling equipment in your store complies with health and safety regulations.

Maintenance Records:

Keeping detailed records of all maintenance activities for compliance and tracking purposes.

WE'RE NATIONAL LIKE NO OTHER
